WPS EMERGENCY TRAINING

Prepare for Every Situation

TRAINING THAT SAVES LIVES

Our mission is to enhance the life safety of building occupants by empowering the "true" first responders.

- 40 years of service in the fire and life-saving industry
- End-to-end support for all of our services
- Best in class emergency plans, training and software
- Proven track record for reducing liability and saving lives

TRIED AND TRUE EMERGENCY PLANS, TRAINING AND SOFTWARE

Property owners and managers are constantly facing new challenges that can increase liability risks. Some of these challenges include a lack of adequate emergency response planning, old and ineffective equipment and improper emergency training protocols.

WPS provides increased safety, with improved access to resources, for all parties involved.

HOW WPS TRAINING HELPS SAVE LIVES

Our training is customized based on your building's fire alarm system, fire suppression equipment, exit pathways and assembly areas. We also deliver training from the operations level down to building occupants, ensuring everyone is prepared and protected.

Disaster Management Solutions

WPS EMERGENCY TRAINING

We offer a wide variety of emergency response training for building emergency personnel and tenants. Our training programs are customized for your building's safety systems. We have professional and experienced trainers who have a passion for life safety and are committed to enhancing the safety of tenants during an emergency response.

- Command and Operations
- Floor Wardens
- Building Occupants

LIABILITY RISKS WHEN TRAINING IS NEGELECTED

In emergency situations, proper preparation and training are key to avoiding injury to tenants, expensive property damages and large repair costs. In 2020, there was $21.9 million in estimated property damage due to emergencies, 3,500 civilian deaths and 15,200 reported civilian casualties. These numbers can be reduced by prioritizing emergency training.

WPS EMERGENCY TRAINING BENEFITS

Ensure all building personnel know emergency protocols

Limit property damage during emergency situatuions

Deliver training that meets code-requirements

Cover all potential emergency situatuations

Make sure your buildings and tenants are always prepoared
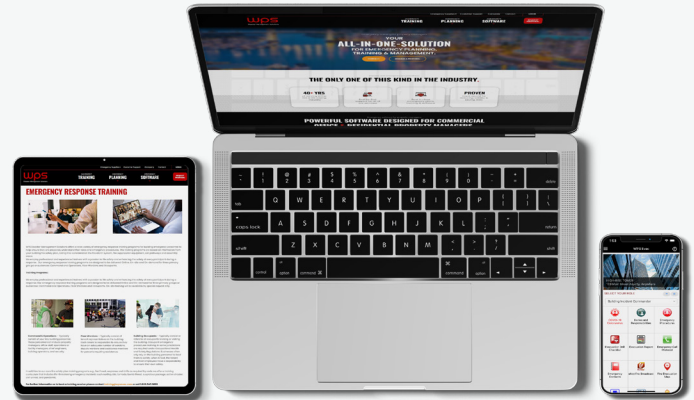

INSTRUCTOR-LED TRAINING

Our professional WPS trainers will deliver training via an online screen sharing service that allows participants to attend from the comfort of their home or work office.

Webinar-style training enables us to reduce many of the costs associated with in-person training. On-site training is available by request.

ON-DEMAND TRAINING

Our convenient on-demand training is an easy and effective method to train emergency personnel at all levels and ensure they remain compliant in all code-required safety emergency procedures. Our on-demand training modules can be completed conveniently using your phone and the WPS Evac Mobile App, or on a laptop or desktop computer. When finished, a record is automatically created in the building's WPS Evac Software system.
